Friday and Saturday, Oct. 7-8

### "The Temptress"

With Greta Garbo, Antonio Moreno, Lionel Barrymore

A Great New Beauty in an Ibanez Masterpiece

She was a passion flower, casting the fiery spell of her beauty on all men. Greta Garbo, the great new beauty of the screen will win your heart, too, in this magnificent all-star production of Ibanez' best novel, directed by the man who made "Ben Hur". From the gay capitals of Europe to the wilderness of South America, this brilliant romance blazes a trail of passionate adventure. It is one of the most brilliant and spectacular plays of the year!

Coming Next Wednesday: (Title Later)

Coming Next Friday and Saturday: "THE COUNTRY BEYOND."

### LOCALS

flowers goes a long way to show that a barber shop may be made to look attractive.

A daughter was born to Mr. and Mrs. A. E. Morrison at the Reinhart hospital, Vulcan, on September 26th.

The Long Louis restaurant is making a new record this fall. In one day the purchases of meat amounted to \$

No one makes more thorough or scientific examinations than does John F. Miller of Calgary, who stops at the Hotel in Champion on Friday, October 14th. Remember the date.

The Masonic district meeting will be held at Nobleford on Friday, October 7th. As usual there will be an afternoon and evening session.

Gunder Nerison's old enemy, rheumatism, has again attacked him, and he still lacks a lot of his usual pep during the pressure of harvest business.

J. M. Moffatt threatens to become the truck king of Alberta, if he has not already reached that distinction. He has disposed of some forty trucks this fall.

The delay in the starting of threshing allowed those who were behind in their stooking to secure men and catch up with their work. It's an ill wind that blows nobody good.

New cook cars, new bunk cars and other threshing paraphernalia are in evidence everywhere at the present time. The trek to the country, when it occurs, will be impressive.

All American magazines which contain nothing but fiction are now subject to a duty of 25 per cent. The new duty affects a very long list of publications formerly sold largely here.

T. R. Jopling's corn field has been one of the popular places of resort for Champion residents for some time past, and corn has been a very popular dish in many homes in consequence.

The roads dried rapidly after the recent rain and by Monday were passable in every direction, although very rough. The main street in Champion was a matter for general pride in this instance.

A. H. Peatman is still agent here for the Calgary Albertan and Herald, and the Lethbridge Herald. Those desiring these papers should make it a point to see him about new subscriptions or renewals.

Among the places of business which have been thoroughly modernized recently is the Sam Fong Cafe, which changed hands a short time ago. It is now right in the running as far as equipment goes.

John F. Miller, registered optometrist of Calgary, will be at the Hotel in Champion on Friday, October 14th. Remember the date and bring your children.

The institution of a Wednesday night picture show would appear to be highly popular to judge by the attendance, and the high class pictures which have been secured are a credit to the management.

The list of delegates to the Conservative convention in Winnipeg includes Mr. and Mrs. Harry Nelson, of Vulcan. In the list published there does not appear to be any representative from Champion.

James Hamilton is now second man at the Alberta-Pacific elevator. Jimmie was a shining light in musical circles here last winter and his location here permanently will be welcomed by music lovers.

Among others the editor benefited by a gift of corn from E. P. Ulfsten, and it was mighty good corn, too. Let us hope future crops will permit the same generous donations as are possible from this year's crop.

On September 1st W. A. McIntyre, for some years with McCullough Bros., accepted a position with J. M. Moffatt. He is succeeded in his old position by J. H. Bastin, formerly of Peacock's store at Carmangay.

Flurries of rain and snow have featured this week's weather although continuously, while low hanging clouds have been a nearly constant condition. From any standpoint nothing less desirable to any great extent could have happened. The season is getting so late considerable anxiety is being felt as to just when the threshing is going to be done unless there is an abrupt change in weather conditions. At time of going to press there is a marked improvement in the situation.

Herbert Gill is now busily engaged in adding the municipal hall levy to his tax roll. The levy in this municipality amounts to \$50,000 this year.

An assistant at the Beaver Lumber Co.'s yard here will soon be a matter of necessity. C. McLaren is now one of the busiest men in town.

G. L. Dupuis' clean-up in the implement line this fall must have been highly satisfactory. The first thing you know George will be presenting the town with a free library, a hospital, or something of the kind.

W. McInnes' window decoration of a popular place these days is E. Latiff's billiard and snooker room. It is one of the best equipped billiard parlors in the country and good tables, etc., are bound to be appreciated.

Ole Running is now at his farm in the Lemond district helping to thresh and market the wheat crop on his farm. He expects to be able to retire from anything in the way of labor when all the returns are in.

The experience of last fall is very evident in the desire to harvest root crops while the harvesting is good, even if roots of all kinds are more or less muddy. Once bit by frost, however, is an appropriate way of putting it.

Threshers and others will do The Chronicle a favor by reporting any delays of grain out of the ordinary they may happen to meet with. In print these figures last a long time and will be valuable in the future for reference.

More weather prophet reputations have been lost or badly damaged in this vicinity during the last three falls than has ever happened before. Even Fred Alcock is now very wary about expressing his convictions about coming weather.

Practically all the meters in town have been installed during the past week by the Calgary Power Co. In consequence there is less brilliant illumination and the necessity of having the street lights installed at an early date has been very apparent.

Contracts have been awarded by the Alberta Wheat Pool for the construction of two more elevators. It is announced from the head office of the Pool in Calgary. There will be 35,000-bushel houses located at Sauki and Rahieron, the newly completed Bow Slope branch of the C.P.R. This will bring the total number of elevators owned by the Pool at country points in the province up to 157.

It is gratifying to be able to state that an appeal to every man who does business in Champion at any time to get on the permanent list of The Chronicle has already borne fruit, several new subscriptions having been received. A general support of the paper means a better paper, and this district should be well able to provide the finances for a much better newspaper than The Chronicle of the past. We are ready to do out part if the public at large will do theirs.

F. A. Pauline, Agent-General for British Columbia in London, and G. G. McGeer, of Vancouver, freight rates counsel for the coast province, left Edmonton on Thursday for a tour of inspection of the Peace River country. As a result of their visit, stated Mr. McGeer, London financiers will be given further accurate, first-hand information as to the resources of Alberta's great Northland. Both visitors stated that British Columbia is also vitally interested in the settlement and development of the Peace River area and especially in the provision of a coastal outlet for that section.

## We Really Hate to Boast

THURSDAY, OCT. 6, 1927

NOTES AND COMMENT.

It is gratifying to see all the new machinery and trucks, etc., leaving for the farms, but it must not be left sight of that all these must be paid for. The tendency to buy too heavily is always so much in evidence in this country that the question will arise if some of the expensive purchases in this respect could not be avoided. For some reason a crop in prospect

always seems larger and promises greater returns than are ever realized, except in very few instances.

The demand for good roads is being fostered by a large section of the press, Quebec and Ontario being quoted as example of real road building activities. Everyone admits the desirability of good roads, but the where-withal with which to build them is another matter. Already the provincial government has almost every conceivable method of taxation in use and at that is expecting a deficit.

An extensive program of road building, even with assistance from the Dominion government, would have to be financed, and the advocates of good roads fail to advance any system by which the additional amount needed could be raised without further heavy levies being made for the purpose.

The failure of the C.P.R. to install lights at the station is a matter of general regret. If there is one place in town more than another where lights are absolutely necessary

it is in the vicinity of the station on these dark nights. The first person who falls on the flight of steps approaching the station should protest long and loud over such an unnecessary risk being maintained.

Calgary seems to provide an almost unbroken string of automobile accidents, exceeding the average for a city of the size considerably. Is there something definitely wrong about the regulations governing traffic in the city which leads to a rather outstanding record in this respect?

It would appear that threshing outfits will have but little difficulty in securing a full complement of men and teams when they are ready to go into the field. For a time it looked as though there would be great difficulty in securing gangs of men and teams for the large number of rigs to be equipped.

It is to be hoped the lateness of the season will not lead to the threshing of grain before it is fit for the market. There was a considerable loss from this cause last year, and if at all possible, it should be avoided this year. The loss of two or three grades makes a big hole in the farmers' profits.

The housing problem continues to be a serious problem in Champion and it is apparent it will take considerable building operations to solve the problem. At present a dozen extra houses would be snapped up immediately.

Interest in the world's series between the New York Yankees and the Pittsburgh Pirates is considerably in evidence here. With a long record of success in baseball circles it is quite natural that Champions should find the baseball classic of the year something to discuss and in some instances to gamble upon.

The largest crop of sugar beets in the history of the industry in Alberta is estimated this season from the southern part of the province where harvesting is now under way. The crop will, it is expected, total from 45,000 to 50,000 tons as compared with 41,000 tons last year. On account of the plentiful supply of rainfall during the growing season the crop has grown satisfactorily with very little irrigation. The sugar factory at Raymond is expected to open for its fall run about October 10.

Cheap and Effective  
A "Want" Advt.

Lost

One Stead half drum on September 28rd, between A. Ferguson and town. Will find please return or phone to A. Ferguson, or British American Oil Company.

Tents For Sale

**Local and General**  
The W.I. will meet at the home of Mrs. J. D. McDougall on Tuesday, Oct. 11th. Roll Call—current events.

Champion Chapter O.E.S. are arranging to start their popular card parties and dances at an early date. Further announcement, including date of the first event, will appear in an early issue.

Among the harvesters in this district this fall is Harry D. Costigan, son of the late Senator Costigan. He is so pleased with prospects here that he is considering remaining permanently.

The power and light lines are affecting radio sets to a considerable extent since their installation here, and naturally the effect is not beneficial to clear reception. It would be a real pity to take all the wires down so soon after their erection, but nothing should be allowed to interfere with the radio sets.

The annual Halloween dance under the auspices of Chamblion Women's Institute will be held on Friday evening, Oct. 28. This dance has always been one of the most popular events of the kind held in Chamblion, and the ladies in charge this year hope to eclipse all former successes. Don't forget the date.

According to the Morning Albertan and Lethbridge Herald, three suspects were arrested in Vulcan last Saturday night. To accomplish this the constable came to Chamblion for the men and must have taken them back to perform the ceremony of arresting them. This was an unkind cut from the A.P.P. to say the least. Chamblion was surely entitled to all the limelight available from the presence of such notables for several hours.

## Girls' Work Boards Formed Here

Miss Mabel Nix, secretary of the Alberta Girls' Work Board, met a number of the girls in town in the church on Saturday afternoon. She spoke to them, explaining the purpose of organized work. A number of the mothers were also present, providing a much appreciated lunch. It is expected that three groups of girls, led by Mrs. R. I. Baker, Miss Smithson and Miss Bond, with the help of other ladies, will pursue the program outlined. Miss Nix was able to meet the senior girls in their Sunday School class, tell a story to the entire school, and speak both at the services at Blusson in the afternoon and Chamblion in the evening. Every use of her splendid ability was made to inspire our people, and it is hoped she may be able to visit the community at frequent intervals.

## Edmonton to Have Canning Factory

A site for a canning factory has been purchased in Edmonton for the Broder Canning Co. of New Westminster, B.C., and an early start will be made with the erection of a plant which will run Alberta grown fruits and vegetables.

## Good Place For Fish Stories

The total weight of trout taken by anglers at Cold Lake this season is placed at 55,000 pounds, in addition to which 1,350 pounds of jackfish and 350 pounds of pickerel were taken out of the same waters, according to the report of Herre Turcotte, fisheries overseer of the lake. A total of 965 angling permits were sold this year and the largest trout caught in the lake weighed forty pounds, four pounds heavier than the record fish in last season's catch.

## Oil Production In Alberta

The following figures, published by the Calgary Oil Examiner, are the latest available indicating the daily production of the chief producing oil wells in Alberta:

McLeod No. 1	9 Barrels
Royalite Nos. 1, 2 and 3	24 "
Edmonton Wainwright	30 "
McLeod No. 2	50 "
McLeod No. 3	40 "
New McDougall Segur No.	62 "
Illinois-Alberta No. 1	80 "
Hone No. 1 (estimated)	100 "
Vulcan No. 1	100 "
Dalhousie No. 5	250 "
Dersheim (potential)	250 "
Royalite No. 4	347 "

## Silver Fox Industry Growing Rapidly

The number of silver fox farms in Alberta has doubled during the past year, according to the estimate of H. S. Outton, inspector for the Canadian National Silver Fox Breeders' Association, who has been looking into conditions in this province. It is the belief of Mr. Outton that the gross profits from the sale of Alberta raised fox pelts will be more than \$600,000, in addition to which there will be a considerable profit from the sale of live foxes for breeding purposes. Last year there were 3,000 registered foxes in Alberta and it is expected there will be 5,000 more to register this year. There are 25 registered fox ranches in Alberta, on which the stock varies from a few pairs on the smaller places up to 200 pairs on the larger farms, that of Colpitts Bros., near Calgary, Alberta at the present time ranks among the provinces in the Dominion in regard to the size of the fox industry.

## The Old Belief Exploded

INLAID LINOLEUM if properly treated is just as easily cleaned as the ordinary linoleum.

AND WHAT IS MORE it will give you years of constant service.

Inlaid Linoleum cost more to buy but it will last you so much longer that it is much cheaper in the end.

## Making the Canadian Dollar Go Farther than Ever Before

IN the purchase of the common commodities of life, the Canadian dollar has decreased in value during the past decade.

But, in the purchase of an automobile, the dollar is now worth one hundred to two hundred per cent more than it was seven to ten years ago—is worth more, in fact, than ever before in history.

While constantly raising the quality standard of its products, General Motors of Canada has

increased the purchasing power of the Canadian car-buyer's dollar. . . .

. . . by the economies of volume purchasing and production, . . .

. . . by the close co-ordination of resources and facilities, . . .

. . . by improved labor- and time-saving methods of manufacture, . . .

. . . by sharing with Canada the savings effected by increased production.

In quality and in value, the Canadian dollar now goes farther than ever before in the purchase of a General Motors car.

## HEAVY LOSS OF LIFE AS TORNADO STRIKES ST. LOUIS

St. Louis, Mo.—Sixty-nine persons were known to have been killed, 375 injured and property damage estimated at \$75,000,000 was caused by a tornado which devastated an area of six square miles here.

The fatality list was expected to increase with the deaths of critically injured and the discovery of other bodies. The total number of injured was estimated at 1,000, as hundreds received treatment by private physicians and made no report to hospitals or police.

The Chicago Democrat estimated 5,000 or more buildings, residences and business houses were demolished or damaged.

Striking the beautiful west end of the city, the tornado came from the southwest, reaching a velocity of 50 miles an hour in a few seconds and subsided in many minutes later. The storm was short but brilliant as it whirled through wind-own areas.

The worst site, a section of houses of moderate wealth at St. Louis, lay covered with a blanket of uprooted trees, torn timber and bricks, out of which crept injured men, women and children, black and grimy as though emerging from a coal mine.

It is estimated that 2,500 homes have either been destroyed or damaged while the streets and boulevards were clogged with fallen telephone poles and hundreds of the city's most beautiful trees. Tornado winds from their tops spat like flames as they met the car tracks and the shouts of policemen kept the city's streets from being a scene of death from the "five winds."

With telephone service demolished, it took the city several days to learn what had happened. The news of the tornado was flashed over the city by radio and wires in part of the city ravaged by the storm were in terror as they awaited word from the schools in the tornado district.

## South Africa Will Erect Mooring Mast

Wish To Contribute To Inter-Empire Airship Service

Durban, South Africa.—The Heriot-Watt Government has concluded an agreement with the Imperial Airways Limited, London, for the erection of a mooring mast at Tongaat, Natal, 30 miles from Durban, to which a windmill will be established at Tongaat.

In connection with the projected mooring mast, it was reported some months ago that it had been decided that the airship service should be controlled by South Africa's railway administration and that approximately \$250,000 would be spent on the mast itself.

It is understood that the Government committed itself to construction of a mooring mast for the service of the South African Union to the Inter-empire airship service.

## Russia Planning To Buy Montana Horses

Increased Price In Western Canada Too High Is Reason

Quebec.—Canada's second contingent of horses to Soviet Russia is now on the high seas, the Russian steamer Dabakir having left Quebec with 1,100 animals for Leningrad.

Captain Stankoff, in charge of the ship, said before leaving that Russia is looking forward to the state of Montana to supply her with horses, due to the action of Western Canadian farmers in raising the price of their animals to \$20 each. Montana and other states are willing to supply the horses at \$12 per head, he said.

The Dabakir will be back here early in November for her third and last trip of the season.

### Will Endorse Proposal

Toronto.—Toronto women and probably Ontario women generally will support British Columbia's proposal to make women eligible to the Senate of Canada when the proposal is discussed at the meeting of the National Council of Women at Stratford, Ont. The three commissioners are hard at work on the report, which will, it is expected, be voluminous.

### Preparing Customs Report

Ottawa.—Three more weeks will be required to complete the report which the Royal Commission on Customs will present to the Governor General. The three commissioners are hard at work on the report, which will, it is expected, be voluminous.

W. N. U. 1701

## Have Reached Agreement

Railways Likely To Allow Hon. Robert Forke To Control Foreign Immigration

Ottawa.—Negotiations recently initiated by Hon. Robert Forke, Minister of Immigration, looking to a certain extent the influx of foreigners to Canada, if and when this is necessary, are achieving their object, it was stated here.

Recently in Montreal, Mr. Forke conferred with President Beatty of the Canadian Pacific Railway in regard to the existing agreement between the department and the railways respecting continental immigration. The Minister had a conference on the same subject with Sir Henry Thornton, president of the Canadian National.

"I think we are now in agreement," stated Mr. Forke after seeing the C.N.R. He indicated that the arrangement with the railways is not being re-drafted, the new provision or undertaking is, that the Minister will have the absolute say as to when, in his judgment, the influx of foreigners should be stopped or restricted. "Meanwhile," said Mr. Forke, "I think that what has occurred will serve as a warning sufficient to avoid the necessity of any arbitrary action."

## Gypsy Children Ask

For Separate School

Pupils in Czechoslovakia Fear These Of Other Children

Prague.—School children in the town of Homonna, Czechoslovakia, have asked for a separate school, because of their dislike for the fact that the swarthy gypsy nomads beside whom they sit have cannibalistic tendencies. Striking children have been strongly supported by their parents, who declare their children are in danger of being eaten. Seeing the force of their arguments, the authorities have decided to build a separate school for Gypsy children, which, it is believed, would be the only one of its kind in the world.

The present protest grew from alleged cannibalistic orgies for which 26 gypsies are now awaiting trial. They are said to have confessed to murdering and devouring scores of persons, pleading the times were bad and they could not afford to buy ordinary meat, but that they did not see anything wrong in eating human flesh.

## May Not Attend Parley

Uncertain Whether Premier King Will Go To Continental Congress

Ottawa.—Considerable uncertainty exists as to the likelihood of Premier King's attendance at the continental congress of the sitting of the Continental Congress in York, Pa. At present out of the city, it is believed that on his return he will be busily engaged in preparing for the conference of provincial premiers to be held here early in November. No decision has yet been reached by Mr. William Phillips, United States Minister to Canada, as to whether he will attend the continental.

## Paralysis In Sweden

Stockholm.—The infantile paralysis outbreak reported in various parts of Europe has reached Sweden, cases being reported from two provincial districts. At Marna, a military training field north of Stockholm, a young soldier has been stricken by the disease, and in the neighborhood of Örebro, west of the capital, several children are ill, but none fatally this far.

## New Rule On Falfa Seed

Ottawa.—Regulations under the Seeds Act have been amended to prohibit the importation into Canada of alfalfa seed or any mixture of seed containing ten per cent, or more alfalfa seed, unless ten per cent, of the seed in each container is colored red. This action has been taken to discourage the importation of Southern green alfalfa.

## Remains A Progressive

Toronto.—After ten years in the office of the Premier, Hon. E. C. Duff, former U.E.O. Premier of Ontario, publishes a letter two columns long in which he declares that he has not gone over to the Liberal cause but is still really a Progressive although in disagreement with present U.E.O. policies.

## Greatest Sea In Small Boat

Montreal.—Admiral Lord Las Palmas in the Ontario Islands report the arrival here from Funchal of a small boat named by Hugh Housley, which he had come from the United States. His only companions were a dog and a cat. He was a wife and several children in Las Palmas.

## Plan Subways For Montreal

Huge Project Would Provide Subway Lines and Abolish Level Crossings

Montreal.—Initial steps have been taken, it was officially announced, by a group of local interests concerned with financial factors in New York to enter into a \$200,000,000 project with the city, province, Federal Government and railway companies to abolish level crossings in Montreal, construct a grand central terminal station and undertake underground train facilities.

The work in view comprises, it was stated, the abolition of all level crossings in and entering the city either by elevating them or putting them underground. The proposition which it is stated is being made to electric, provincial and Federal governments, besides the railway heads, would provide for collaboration of all these bodies in the financial arrangements.

## RURAL ROADS ARE PLANNED TO AVOID ACCIDENTS

Niagara Falls, Ont.—Delegates who attended the annual convention of the Canadian Good Roads Association meeting here apparently became impressed with the necessity of continually throughout the discussion the speakers veered from their original topic to safety first suggestions.

H. R. Mackenzie, chief field engineer for Saskatchewan, stated that his province was planning its rural roads with the aim of making them accident proof. Mr. Mackenzie stated that the roads were being constructed 24 feet wide, and with ditched sides, so that a gradual slant that an automobile could run into them at a fair speed and still fall in time to turn or fall on its side.

The annual meeting of the association, held apart from the convention, did not pass without its recognition of the accident situation, several resolutions being adopted supporting the "safety first" campaign.

In touching upon the question of federal aid, the province to a resolution pointed out that the Dominion Government had collected upwards of \$15,000,000 in the past ten years which could be so traced directly or indirectly to highways. In view of this the association instructed its executive committee to make every reasonable effort to induce the Federal Government to grant financial assistance to the building of good roads.

The election of officers resulted as follows:

President: Hon. P. A. Black, minister of highways, Nova Scotia; first vice-president, Hon. O. L. McPherson, minister of highways, Alberta; second vice-president, Hon. W. H. Sullivan, minister of public works, British Columbia; secretary-treasurer, George A. McNamee, Montreal.

## C.P.R. Earnings

Montreal.—The gross earnings of the Canadian Pacific Railway for August were \$17,525,824, an increase of \$284,400 over the gross earnings during the same month in 1926. The working expenses for the corresponding period, however, showed an increase of \$1,071,087, representing a decrease of \$143,237 in the net profit compared with August 1926. Net profits for August 1927 were \$3,362,143-11.

## Would Restrict Sunday Trade

London.—Several large organizations in the retail trade are promoting a bill to be submitted to Parliament calling for the restriction of Sunday shopping, which, in the past few years, has grown enormously, particularly in London.

Another Englishman has been confirmed with him the highest title of one of the famous Indian tribes of the Western Plains. The title of "Chief Bear Head" was conferred upon Dr. Edward Brown, of the Ontario, London, England, by Chief Running Antelope of the Sarcee Tribe.

The ceremony took place on the morning of the 10th of July, during the Canadian Pacific Western tour of the World Youth Congress Delegates of which party Dr. Brown was an outstanding member.

The photograph shows Dr. Brown shaking hands with Chief Running Antelope after he was accepted as a member of the Sarcee Tribe.

## Young Orator

British Aviator Makes Record For Long Distance Solo Flight

Capetown, South Africa.—Lieut. H. Bentley, instructor for the South African air force, who left London, England, on September 1, in a light north airplane for Capetown, completed his long solo flight of more than 7,000 miles.

Lieut. Bentley, who made the trip in long hours to prove the feasibility of London-Capetown air communication, and to demonstrate the expedition of a light plane on long distance flights, created what was said here to be world's record for a long distance solo flight.

The aviator, who had hoped to make the trip in 19 days, found 23 necessary to make the trip, some of it over hazardous and desolate country.

## Eugene Chen Married

Reported Marriage in Moscow Of Former Nationalist Foreign Minister

London.—The Govt of China says once more to have cut out the Govt of War in the Chinese Nationalist movement.

The Rila correspondent of the Daily Mail says an official Soviet despatch has stated that Eugene Chen, former Nationalist Foreign Minister, and Miss Sun Yat Sen, widow of the father of the Nationalist movement, were married in Moscow.

The newspaper reports the couple intended to spend their honeymoon in Moscow, starting a new revolution, and adds that the Third Communist International is financing the activities of the bridal couple.

Minister Of Railways Pleased With Work On Bay Line

Calgary, Alta.—C. A. Manning, Minister of Railways, expressed his satisfaction with the progress of the work on the Hudson Bay Railway in the centre of an interview here. The minister said that the work was progressing as far as the mile 250 and the bridge over the Stonehouse River at that point had been completed.

It was within the next few weeks the Canadian National will be the contract for the last section of the railway to be completed.

In reply to a question as to the prospects of Port Churchill and the length of the shipping season, Mr. Manning said they must await Mr. Palmer's final report.

## Would Make Britain Dry

Evangelists Boast Convicted That Prohibition Is Possible In England

London.—Commander Evangelist of the Salvation Army, to whom a welcoming reception was given in a big London hall, is convinced that prohibition is a big possibility for England.

"If I were over here and had the help of Lady Astor, we could bring prohibition into England in no time," she is quoted as saying in an interview.

The Commander, who is making his first visit here since 1925, has been strongly on the bench since he said prohibition had brought to the United States. "I would say to every country, if you want to be rich and free, prohibition and banish drink, crime and inefficiency."

London.—Several large organizations in the retail trade are promoting a bill to be submitted to Parliament calling for the restriction of Sunday shopping, which, in the past few years, has grown enormously, particularly in London.

## WANT CANADIAN CO-OPERATION ON WATERWAY PLAN

Washington.—Co-operation of Premier Mackenzie King's Government of Canada with the United States for the protection of the Great Lakes-St. Lawrence waterway was predicted by W. L. Harding, president of the Great Lakes-St. Lawrence Waterway Association, after a call upon President Coolidge. He said he had "heard rumors" that the president intended to head a commission to look an agreement with the United States and he believed these to be true.

Harding also declared that he saw no prospect of a less greater than 5,000,000 barrels of grain to United States Great Lakes shippers as a result of the filing of an eleven cent rate by the Canadian Railway, who would not ship from Winnipeg to Quebec.

Harding, a former governor of Iowa, said that he was coming to the continent for Frank O. Lowden, for president, in his state and that in some respects, particularly the canal part, Secretary Hoover seemed to be getting down to the business of getting down for the Republican nomination.

He also believed that the role of the McNary-Brown farm relief bill would not play an important part in Iowa presidential politics as has been generally predicted.

## Doctor Made Indian Chief

Another Englishman has been confirmed with him the highest title of one of the famous Indian tribes of the Western Plains. The title of "Chief Bear Head" was conferred upon Dr. Edward Brown, of the Ontario, London, England, by Chief Running Antelope of the Sarcee Tribe.

The ceremony took place on the morning of the 10th of July, during the Canadian Pacific Western tour of the World Youth Congress Delegates of which party Dr. Brown was an outstanding member.

The photograph shows Dr. Brown shaking hands with Chief Running Antelope after he was accepted as a member of the Sarcee Tribe.

## Completes Long Trip

British Aviator Makes Record For Long Distance Solo Flight

Capetown, South Africa.—Lieut. H. Bentley, instructor for the South African air force, who left London, England, on September 1, in a light north airplane for Capetown, completed his long solo flight of more than 7,000 miles.

He also believed that the role of the McNary-Brown farm relief bill would not play an important part in Iowa presidential politics as has been generally predicted.

## COMMUNISM IS LOSING GROUND IN GREAT BRITAIN

London.—Some interesting figures have been furnished by the central executive committee of the British Communist Party in connection with the annual conference which will be held shortly.

It is stated in the committee's report that a membership of more than 10,000 was registered last year when the country was affected by the strike of the coal miners and the general strike in connection therewith, but this year the membership is 7,200.

The decrease in almost exclusively confined to the mining districts. The party's largest strength continues to be in the north of England, where there are now 2,500 members, the report says. Scotland furnishes 1,200 members and London 1,300.

The Communist Party's publications, the report adds, have dropped of 26 per cent. in the past six months.

## Australia's Tariff On Automobiles Raised

Canadian Manufacturers Will Suffer Under New Rating

Sydney, Australia.—The new Australian tariff, effective immediately, will have its effect on the Canadian automobile export trade with Australia, which during the past two years has averaged \$12,000,000.

Canada comes under the immediate tariff in Australia. Hitherto the duty charged by Australia on Canadian-made assembled chassis was 12½ per cent. This year the duty has been raised to 15 per cent.

The new tariff in the case of the United States, will be increased from 12½ to 17½ per cent. In the case of un assembled chassis, and from 17½ to 22 per cent. In the case of American-made assembled chassis.

English-made assembled chassis will be admitted to Australia free of duty, while an import duty of 10 per cent is put on assembled English chassis.

The minister of customs said he hoped the new tariff might cause a shift from United States to British and cause a stimulus to inter-empire economic development.

## Praises Canada's Judicial System

Method For Superior To U.S. Says Toronto Court Official

Toronto, Canada.—In his address to the judges of the Ontario Court of Appeal, Justice Macmillan, stated that the judicial system of the United States, which he had just returned from, was a model of efficiency and that the Canadian system was a model of efficiency.

Justice Macmillan, who is a member of the Ontario Court of Appeal, said that the Canadian system was a model of efficiency and that the Canadian system was a model of efficiency.

Justice Macmillan, who is a member of the Ontario Court of Appeal, said that the Canadian system was a model of efficiency and that the Canadian system was a model of efficiency.

## Names Are Perpetrated

Hungarian and Coll Under Fire In Canadian Place Names

Ottawa.—Hungarian and Coll, who sought to fix the Atlantic and failed, will live forever in the place names of Canada. The topographical survey department of the Interior has named a number of places in the province of Ontario in the vicinity of Wrenn, Narvay and Birch Lakes in northwestern Ontario.

On the map, the name Nungesser has been given to a lake and to the river flowing from it into Little Vermilion. The name of Coll, too, has been given to a lake.

As Nungesser and Coll were killed in death, so Lakes Nungesser and Coll are linked by the highway of river and stream.

## Expenditure For Indian Schools

Warsaw, Poland.—An agreement on certain points of a pact of non-aggression between Russia and Poland has been reached in recent weeks.

It is believed that the role of the McNary-Brown farm relief bill would not play an important part in Iowa presidential politics as has been generally predicted.

Harding, a former governor of Iowa, said that he was coming to the continent for Frank O. Lowden, for president, in his state and that in some respects, particularly the canal part, Secretary Hoover seemed to be getting down to the business of getting down for the Republican nomination.

He also believed that the role of the McNary-Brown farm relief bill would not play an important part in Iowa presidential politics as has been generally predicted.

*"I'll tell you why I'm going to  
buy a Westinghouse—"*

"Looking back over the past 25 years, I found less than 20% of all automobile manufacturers have stood the test of time and are in business today."

The radio industry is undergoing an identical process of elimination and I'm going to buy my radio from a manufacturer with many years' experience, unlimited resources and assured permanence in the business.

Westinghouse built the electrical apparatus that provides the profits for

our business by keeping our machinery working year in and year out. They are pioneers in the business and have a wonderful reputation to maintain. They take no chances. Our company doesn't either—and neither will I—so you'll hear the latest Westinghouse model the next time you come up to the house."

*We will gladly demonstrate the 1928 Westinghouse models and explain the many improvements that make them better.*

PIONEERS IN RADIO

## Local and General

Chicken pox is making the rounds of the school children at the present time, but is not causing any alarm to parents.

On Monday, October 10th, Tom Copeland, the Scottish entertainer, and his company, will appear in Campbell's hall under the auspices of the Ladies' Aid. The admission will be 50 cents for adults and 25 cents for children. A varied program will be supplied and those who attend are assured of a splendid evening's entertainment.

J. M. Moffatt is making returns from the baseball series easily available to everyone by providing a radio service, including a loud speaker which can be heard all over town, and a demand in the window of his store on which every play is recorded so realistically as to be almost as satisfactory as being in Pittsburgh or New York. To say this is highly appreciated is a mild way of putting it. Naturally Mr. Moffatt's store is the centre of attraction during the progress of the ball games.

Mrs. A. F. McKinnon and baby are visiting the formers parents, Mr. and Mrs. J. W. Watkins.

Mrs. Barbara M. Rae, dressmaker, has changed her shop to a room in the old Beaver Lumber Co's building.

Three men, in possession of a new Paige car with a Saskatchewan license, were arrested here on Saturday night by Const. Davis, assisted by the Vulcan town policeman. The men carried weapons but no money, and their stay here of several hours was likely due to this cause. They were taken to Calgary, but news as to their disposal is lacking.

### Business Bringers

Terrific duels—mighty cataclysms—and gorgeous revels—in a drama so mighty it baffles description—The Temptress.

Matches, 3 box carton 30c, at Joplings.

Dishes for the cook car or for the home are carried in attractive patterns.—Hoskins.

Crown Brand Syrup, 5 lb. pull 40c, 10 lb. pull 80c, 20 lb. pull \$1.75, at Joplings.

A wide range of threshing supplies for either steam or gas engines is stocked at Hoskins' Hardware.

Greta Garbo, Swedish Venus, Antonio Moreno, idol of the screen; Ibana, author of gigantic, these make "The Temptress"
